## RE: TEMPORARY WORKS STRUCTURAL ENGINEERING PRICE GUIDE

### Structural Engineering

Below are the **approximate** engineering prices for formwork & scaffolding engineering design, documentation, and design certification. The indicated prices may vary up or down depending on the complexity of the project and does not include GST.

<b>1. Full Design with RPEQ Certification</b>	
Small size project .....	\$750.00
Medium size project .....	\$1200.00
Large size project .....	Quote
(Site inspection is not included)	
<b>2. RPEQ Certification (Design by Others)</b>	
Small size project .....	\$450.00
Medium size project .....	\$600.00
Large size project .....	\$750.00
(Site inspection is not included)	
<b>3. Site Inspection</b>	
Around metropolitan area (Design by AMC Engineering).....	\$400.00
Around metropolitan area (Design by Others).....	\$450.00
(Based on \$150/hour + \$0.65/km)	
<b>4. Hourly Rates</b>	
Engineering.....	\$150.00
Drafting.....	\$90.00

Inspection are necessary and will be carried out by a qualified civil/structural engineer either through us or through other Consulting Engineer on request at the following stages:

- (1) on completion of reinforcement placement, formworks and prior to concreting.
- (2) on completion of scaffolding access

### Required for Quoting

We will require architectural drawings in PDF or AutoCAD format.

Please note that no drawings provided may end up costing more in the long run due to additional work for us to develop engineering drawings in AutoCAD from scratch.

Yours Faithfully,

**AMC Engineering Consultants**
